

<p>General Education Options for Transfer Students At Biola University</p>
--

Transfer students may complete their general education through Biola University's General Education Curriculum or, prior to enrolling at Biola, through the Intersegmental General Education Transfer Curriculum (IGETC).

The IGETC model for the California State University (CSU) system or University of California (UC) is accepted by Biola University with the following provisions:

1. The current foreign language requirement for all bachelor degrees cannot be completed by the IGETC certification.
2. The minimum of 130 units for graduation will remain the same. (*A minimum of 120 units in the adult degree completion program will remain the same.*)
3. In addition to the IGETC, all prerequisites and support courses for existing majors must be met.
4. Transfer students following the IGETC must complete it before they enroll at Biola University. Students who do not complete it before they enroll will follow the Biola General Education curriculum.
