GUESTS:
- Beth Smith, Math Faculty & Treasurer, Academic Senate for California Community Colleges
- Michael Golden, Biology Faculty

RECORER: Rochelle Weiser

I. CALL TO ORDER (11:05)

A. Public Comment
None

B. Approval of Agenda
A motion was made to approve the day’s agenda.
M/S/U Wirig/Fielden

C. Approval of Minutes from May 18, 2009
A motion was made to approve the minutes from the previous meeting.
M/S/U DeWolf/Morrison

*Note: Beth Smith noted that the Tenure Review Coordinator position is still open for next fall.
II. PRESIDENT’S REPORT

A. Introductions and Brief Orientation

Chris began by welcoming everyone back from summer break. She then asked the senators to introduce themselves, the department they represent, and positions held. Chris then began a brief orientation. Chris gave the new senators a handout outlining the role and responsibilities of the Academic Senate. She let the senators know the Senate would be meeting approximately 14 times this year, and encouraged the senators to share “information items” from each meeting with their departments and be ready at meetings to discuss and review them. Chris introduced William Snead as the Senate Parliamentarian and reviewed key Robert’s Rules of Order motions for the members. She also mentioned that some of the Senate’s Bylaws need review and update to clarify procedural issues for conducting meetings. Chris then presented an outline of some of the items for the Senate Agenda and discussion for Fall 2009. Some mentioned were; Sabbatical leave task force, EEO Plan, Basics Skills, grant process presentation, and review of committee compositions. She also noted that the elections for Part-Time senators will be taking place shortly.

B. Sabbatical Leave Replacement of Senate Officer

Chris opened discussion regarding the Senate Officer-at-Large position left vacant for the Fall Semester because of Jeff Lehman’s absence on sabbatical leave. Options available were to leave the position vacant or use our by-laws replacement procedure (drawing from sitting senators) to fill the position temporarily. Several comments were made that having the full complement of officers is best for the Academic Senate. There was a question regarding meeting times. Senate officers attend regular Academic Senate meetings and also meet every Friday 11:00-12:30pm.

A motion was made to use the normal senate procedure outlined in the by-laws to temporarily fill the vacancy left by Jeff Lehman’s sabbatical leave for the fall semester.

M/S/U Robinson/Burger

Chris will send out an e-mail to senators asking for faculty interested in the open position.

C. SLO Coordinator Update-Devon Atchison

Chris introduced Devon Atchison, SLO Coordinator. Devon began by giving an update on the progress made with Student Learning Outcomes (SLOs). Last semester Grossmont College completed SLOs for every course and was able to have every department complete at least one course assessment. This is excellent progress and puts the college on track to be at Level III for the Western Association of Schools and Colleges (WASC) midterm report in October 2010. Level III means that everybody knows about SLOs, they are becoming institutionalized, departments are moving forward, assessments are being done, but not everything is yet complete. For this semester three items need to be completed by each department: 1) an Assessment Study Plan—which SLO the department is going to review this semester is due to Devon 9-18-09; 2) an Assessment Analysis Report due 10-2-09; and 3) a 6 year plan–the plan for when department will assess course SLOs over next 5½ years. Devon demonstrated how to access the documents and forms via the SLO website. Some discussion occurred regarding what is required and enforceable by WASC and the Accrediting Commission for Community and Junior Colleges (ACCJC) in relation to what is seen as “benchmarks” for a department. Devon responded that the term “benchmark” is being used as an internal guide for the departments to determine whether or not the SLOs are successful. Devon will send out an e-mail to the chairs and coordinators with list of Assessment Study Plans she has received, then she will be able to expect which Assessment Analysis Reports she should be receiving. In closing, Devon stated the goals of SLOs are to keep moving forward and be ready for 2010 WASC report.
D. Budget Update

Chris presented information from the Planning and Resources Council meeting. The District wide tentative budget had planned for a $4.1 million dollar deficit, yet after further statewide cuts throughout the summer the deficit looks to be around $9.8 million. Through various cuts, including the Early Retirement Incentive, operational, and section cuts, the district has been able to balance the budget with the entire $9.8 million deficit. The college Planning and Resources Council has set aside an additional 1 million dollars for the possibility of a mid-year “give back” to the State.

Chris then spoke about section cuts. For the original tentative budget it was planned to cut 217 sections since the college would not be receiving anticipated State growth funds. Upon learning the State would further reduce “workload” funds, the college will now need to target cuts of a total of 300 sections in order to meet budget requirements. So far the college has cut 18 sections for Summer 2009, approximately 147 for Fall 2009, and anticipate approximately 55 sections cut for winter Intersession - making a total of 220 sections cut thus far. The goal is to cut at least 80 more sections for Spring 2010. Discussion followed regarding the intersession section cuts and it was confirmed that, with the exception of a few classes required for athletics and performing arts productions, the winter intersession classes will be canceled. Recommendations were made to roll the cuts from the Fall to the Spring schedule thereby helping the college to meet the section cuts needed. It was noted it is much easier to add sections than remove. Chris closed by mentioning that anyone with further questions can e-mail Tim Flood directly.

As part of the annual planning process, the Planning and Resources Council reviewed the Prioritized Activities List forwarded from the Institutional Review task force. Since the process is for funding of items for the 2009-10 year only, the Council removed a couple of long-term items from the list. Any prioritized items that were not funded will be to the Resource Development Committee for help in researching additional funding options. All recipients of funding will be notified.

III. COMMITTEE REPORTS

None

IV. ACTION ITEMS

Chris entertained a motion to move Information Items for the "Equal Employment Opportunity (EEO) Plan Section" and "Standards of Good Practice for Conserving Resources" to Action.

M/S/U DeWolf/Gastil

A. EEO plan Section

Chris opened discussion for EEO Plan. She presented an overview of plan, how Grossmont College fares with regard to EEO requirements, and when this plan form must be turned into State. In addition, she mentioned that the plan was a key part of the college's response to Accreditation Recommendation #1 in the upcoming report. The whole plan can be viewed at www.gcccd.edu/intranet/EEO/. She indicated Section XIV of the plan specifically addresses practices on our campus to develop and nurture a welcoming and inclusive environment that will help us in attracting and retaining a more diverse workforce. There were suggestions to rearrange the numbered items to move the hiring focus to the top and to potentially focus on mentoring to aid retention.
Chris asked if the Senate would like to endorse EEO Plan. A motion made to endorse the EEO Plan. There was a request to be able to share the plan section with the departments. Chris indicated that even with an endorsement at this time, the plan is dynamic and will be updated on a regular basis. She encouraged further input from the faculty as they have suggestions. The Senate entertained a friendly amendment to the motion as follows: Endorse the EEO Plan in its current form; the Academic Senate likes the plan and would like the opportunity to take back to the Departments for further review.

M/S/P Everett/Atchison 1 abstention 1 no vote

B. Standards of Good Practice for Conserving Resources

This item was moved to an Action item but there no time remaining to discuss it. This item will return for action at the next meeting.

V. INFORMATION ITEMS

A. EEO plan Section

See above Action Item section.

B. Standards of Good Practice for Conserving Resources

See above Action Item section.

C. BP/AP 4045-Education Materials-Cost Reduction

Chris asked everyone to review and share the BP/AP with his or her constituents. This item will return as an action item at the next meeting.

Meeting Adjourned at 12:20pm

CH: rw

The Academic Senate minutes are recorded and published in summary form. Readers of these minutes must understand that recorded comments in these minutes do not represent the official position of the Academic Senate. The Academic Senate expresses its official positions only through votes noted under “Action.”
Standards of Good Practice for Conserving Resources

The following are our new expectations for conserving resources throughout the Grossmont-Cuyamaca Community College District. This includes the use of electricity, water, printing and paper as well as strategies for improving our meeting processes.

Many of these suggestions were submitted through the electronic budget suggestion box under the broad category of “cost savings are possible by going green.” Others were developed by District Business Offices and Facilities teams and the Districtwide Strategic Planning & Budget Council.

If you have additional suggestions, please send them to budget.suggestions@gcccd.edu. Thank you for helping us to “Go Green”.

Electricity: Unplug!

- Shut down and turn off computers at the end of each business day
- Turn off lights (don’t be concerned about security lighting – it is all electronically controlled)
- Close all external doors (including classroom doors)
- Air conditioning/heat: turned on only during operational hours between 7:00 a.m. and 11:00 p.m.
- Most buildings have centralized HVAC controls for conservation after hours. During office or classroom hours, set temperature between ___ and ___ if you have a room control device.
- Personal electronics – take home all personal radios, refrigerators, coffee makers, cell phone chargers, heaters, fans, and any other items that use electricity.

Printing/Copying: Going Paperless!

- Embrace technology
- Read and answer e-mail on your computer
- Don’t print e-mail – create folders in Outlook for e-mail messages that you need to save
- Don’t print meeting minutes/notes – create folder in Outlook to save
- When hard copies are needed, use two-sided copies

Office Supplies: Reuse – Reduce – Recycle!

- Order only anticipated supply needs
- Be willing to re-use binders, dividers, etc.

Meetings: “Going Green!”

To conserve resources, improve meeting processes and reduce paper use:

- Schedule meetings in locations that can accommodate a visual presentation. Consider available locations:
  - Cuyamaca Student Center
  - Grossmont Griffin Gate
• Other locations available depending on need

➢ Consider equipment needs:
  • Some locations have equipment available (projector, laptop, screen) – plan ahead when making room reservations

➢ Agendas:
  • E-mail them and, if making copies, make as few as possible
  • Present on screen at the meeting

➢ Agenda Items:
  • Distribute items prior to the meeting if available.
  • Expectations regarding handouts:
    o Items distributed via e-mail before the meeting will be considered draft for discussion at the meeting
    o Items should not be distributed beyond the meeting participants until after discussion at the scheduled meeting
    o Comments or questions regarding items should be brought to the meeting discussion
  • Items will be projected on a screen at the meeting (will not be printed)
  • After meeting, any revisions to items will be distributed electronically along with meeting minutes if applicable

➢ Minutes:
  • E-mail only
  • Do not print
  • Set-up e-mail folders for storage

Start today! – The sooner we all embrace these conservation minded practices, the quicker we will see a positive impact on our environment while reducing our energy use and utilities expense.

| Develop Contextualized learning communities (English 98/98R and Nursing, AOJ, OPT, Child Development, Math 90, etc.) | D.1.2 Problem-solving and critical-thinking skills are integrated into developmental education curriculum  
D.6.1 Instructors in developmental education courses assess, employ, and incorporate a variety of active learning strategies (e.g., student engagement, collaborative learning, learning communities, supplemental instruction, and service learning)  
D.7.3 A systematic approach exists within disciplines to align developmental education course content and pedagogy to degree-applicable and transfer-level course content | Spring 2010 and ongoing | English Department, Math Department and other participating departments |
| Provide workshops to developmental math students | A.5.1 Course related learning assistance (e.g., supplemental instruction, course based tutoring) exists | June 2010 | Math Department, Nemie Capacia, Corey Mancheser |
| Continue the development of Captivate modules | D.2 Curricula and practices that have proven to be effective in specific disciplines are employed  
D.6 Developmental education faculty employ a variety of instructional approaches to accommodate student diversity | June 2010 | Math Department, ESL, English, CTE Departments, etc. |

The Governing Board is committed to reducing the costs of education materials, including textbooks and other course materials, through a variety of approaches that incorporate student and faculty considerations and do not compromise academic freedom or educational quality.

The Chancellor shall establish procedures to promote this policy and shall report to the Governing Board annually on the progress made.

In Spring 2009, recognizing the responsibility of the faculty teaching the subject for the selection of textbooks, the Grossmont College and Cuyamaca College Academic Senates adopted guidelines (Spring 2009) for keeping textbook costs down, stating “Faculty should consider all means to control and reduce textbook and course material costs that do not compromise academic freedom or educational quality.”

The Textbook Task Force, formed at the request of the Governing Board, included representation from the Governing Board (four members, including two student trustees), Academic Senates, Classified Senate, campus bookstores, student services, Grossmont College and Cuyamaca College student governments, and Districtwide Academic, Student, Planning and Research Services. The Task Force, in addition to supporting the faculty guidelines, also proposed some guidelines for students to consider as ways for them to manage the costs of textbooks.
For the purpose of this procedure, the term textbook includes required or recommended learning materials, including books, laboratory manuals, workbooks, student supplements, or other printed, multi-media, or electronic material. For the purpose of implementing Board Policy 4045, the adopted Academic Senate Guidelines “How can faculty keep textbook costs down,” shall be deemed District guidelines for all faculty.

Faculty guidelines for keeping textbook costs down:

1. Adopt or revise departmental purchasing guidelines. Consider adopting or revising your departmental purchasing guidelines to incorporate the principles outlined below.

2. Disseminate information about how students can keep textbook costs down. The ASCC flyer “How Can Students Keep Textbook Costs Down?” can be distributed in class or included in class syllabus or webpage.

3. Submit textbook orders early. This lowers the cost by giving the bookstore time to purchase more used books from students and increases used book availability. It allows students to shop alternate sources for the best price.

4. Consider department-wide textbook adoptions. Department-wide textbook adoptions allow the bookstore to purchase more used books. In addition, the same book can be used by students who retake a class.

6. Order unbundled books when possible. Extra CD-ROMs and workbooks may seem like a good deal, but in fact, it drives up the price by requiring a new purchase each time eliminating the used book and buy back cost savings for students. The bookstore can only buy back textbooks with all the bundled items intact and unused.

7. Create your own textbook study guides and support materials. Requiring students to purchase bundled workbooks, study guides and CD-ROMS with textbooks drives costs up and prevents students from reselling their books. Creating your own study guides and support materials eliminates this additional cost. Explore resources such as grants and release time to create the materials.

8. Stay with the same edition for as long as possible. Adopting a new edition eliminates the used book availability and bookstore buybacks for a semester.

9. Allow your students to use older editions. If you must order the new edition, consider letting your students use older editions when available. Post the older edition information in the syllabus.

10. Consider open learning content instead of a traditional textbook. Consider the offerings at California Community Colleges Open Content CCCOER, Rice University’s Connexions, California State University’s MERLO, and other repositories of extremely low cost and free content.

11. Require a library copy from publisher representative. Work with the library regarding maintaining reserve and reference copies of textbooks. Consider adopting books only if publisher will provide two or more desk copies.

12. Designate as required only those textbooks and materials that will be used. Designate others as optional. Consider that some student resources will not fund optional textbooks and materials, i.e., EOPS/CalWORKs. If more than one textbook or material is required, clearly outline in syllabus when each will be used.

13. Check with the publisher or bookstore for a paperless e-text version. E-text versions are often and initially cheaper. However, consider that E-text books eliminate the buy back and used book option for students.

14. Provide textbook ISBN number. Display textbook ISBN number on syllabus and/or course webpage. This allows the student to shop around for the best price.
15. Consider providing information to students about campus sources for textbook assistance. Provide contact information for financial aid, EOPS/CARE, and CalWORKs on your syllabus and/or course webpage.

16. Recognize that selling instructor complimentary editions drives textbook costs up. Faculty sales of review or complimentary instructor copies impact costs, since most publishers “give away” millions of dollars in books each year, a cost then passed on to students. Many feel it is unethical for individual faculty members to use these giveaways to increase personal income.

**Student guidelines for keeping textbook costs down:**

The Associated Students of Grossmont College and Cuyamaca College recommend that students consider alternative sources and means for keeping textbook costs down, including the following:

1. Buy used books when available.
2. If more than one book is required or recommended, check with the instructor to ask when the book will be needed.
3. Consider if you are eligible for financial assistance for books from sources such as Financial Aid, EOPS, New Horizons or CalWORKs.
4. Check with the library and ask if your textbook is available for limited loan. If the library does not currently have the book, ask the instructor to request a desk copy for the library.
5. Shop around. Compare prices from several book stores on and off campus.
6. Ask instructor for the textbook ISBN number to facilitate this. Check with on-line stores that specialize in selling textbooks such as: whywaitforbooks.com. (This is the campus Barnes & Noble website. A percentage of all sales goes toward college and student government programs.); amazon.com/textbooks; textbooks.com; cheapesttextbooks.com; booksprice.com; campusbooks.com.
7. See if the textbook is available to download free through an open source on the internet. Many such repositories exist. Examples include: wikibooks.org; wikieducator.org; connexions (cnx.org); ccccoer.wordpress.com; oercommons.org; merlot.org.
8. Check for on-line book exchanges between students from sources such as Ebay.com; bookswap.com; campusbookswap.com; swapbooks.com; swaptree.com; bookins.com.
9. Check if the publisher offers an e-text version that is paperless and usually cheaper.

The Chancellor shall report to the Governing Board annually on the progress made.
