

Pathways Navigation and Guided Pathways

The Pathways Navigation grant is designed to strengthen practices related to student entry into the college and navigation into and through their pathway.

The work outlined in this grant will support the implementation of the Pathway Navigation action plan and help ensure alignment with Student Equity and Achievement (SEA) and Guided Pathways.

The work is centered on the development of a comprehensive intake form, differentiated orientations, and career guidance, and exploration processes that occur before students are required to select their courses of study and are integrated with education planning.

For more information on the Guided Pathways framework, we invite you to review the infographic.

Equity Questions

- ❖ Are the college's website and program pages easy to navigate and understand for students and families without prior experience with higher education?
- ❖ Does the college provide a comprehensive intake form?
- ❖ Do students have the opportunity to engage in career exploration during the early phases of higher education? How do students and counselors integrate career planning into educational planning?
- ❖ How are financial costs, potential debt, and economic benefits of program completion (including paths to program-relevant regional employment, projected earnings, and transfer outcomes) made clear for prospective students?
- ❖ Is there an understanding of the needs of local employers,? Is this information shared with students during their career planning?
- ❖ Do program websites clarify differences in earnings potential between related certificates and degrees and across levels of educational attainment?
- ❖ Are there opportunities for students to make connections between careers and their course of study?
