

WELCOME

To the Grossmont College Guided Pathways team!

We are excited to introduce Guided Pathway's newest member, Dr. Michael McHan. He will serve as a Co-Faculty Coordinator on our leadership team.

We asked him what excited him most about Guided Pathways.

"Guided Pathways offers our college a unique opportunity to address existing equity gaps and to collaboratively improve the learning experience for all our students. College should be a transformational experience where all students feel encouraged and supported in their future endeavors. I am excited to be a part of a team dedicated to accomplishing these goals."

Welcome Michael!
