Purpose The goal of the Planning and Institutional Effectiveness Committee is to ensure a culture of continuous quality improvement and data-informed decision-making. Best practices for institutional effectiveness include improving equity and student learning and achievement by analyzing data and using results to inform practice. It uses environmental scan data as well as institutional outcomes to drive institutional responses. DISCUSSION OF PRIOR AGENDA ITEMS / OLD BUSINESS

7. AUP Process Update	<p>There was discussion about the importance of an equity focused structure for planning as we develop our Annual Unit Plan. The AUPs were turned in to CPE in February. The original data that was entered was pre-COVID. We want to give everyone the opportunity to recalibrate now that we are working in a different modality. There are different budget choices as well. The timeline for recalibration of our AUPs are:</p> <ul style="list-style-type: none"> • Before the end of the semester provide three questions to Department Chairs and Coordinators in order to engage in conversation. • In the fall engage in conversations and workshops. • No later than October 15th turn the AUPs with the information we have learned working in this new modality. <p>This situation is fluid. We may learn more from the budget over the summer.</p>

NEW BUSINESS ITEMS

8. KPI Report	<p>The group reviewed the KPI report and data for our metrics. After discussion the PIEC members determined we would use what we set for vision for success for the floor and stretch. In the other areas the 5-year average would be the floor, and that the stretch would be +10% of the floor.</p> <p>At our August 28th meeting we will have an updated report with the floors and stretch goals.</p>
9. Annual Planning Forum Check-In	<p>We have received positive feedback from attendees of the Annual Planning Forum. Attendance has been higher than in the past. The focus has been on the importance of intentional equity focused planning. The final session will be this afternoon.</p>
