Jayson Alvarado

ASGC Director of Campus Activities

ASGC Director of Publicity

ASGC General Board of Directors

“I would love to keep my position as Director of Publicity. I was made to be around people I love talking and planning events for my peers it brings me so much joy. I especially have a lot of fun filming and posting the promotional videos it’s even better because I want to implement that in my actual future career. In high school I got super involved I did track, theatre, wrestling, and even worked in the advertisement department of this small chip company called Chipz Happen. I just loved working with my board this year they’re all amazing, smart, and talented people and I would like to do it again in my final year here at Grossmont College. I just love being apart of such a positive community here on campus.”
