Ciana Garcia

ASGC Director of Board Affairs

ASGC General Board of Directors

“Motivated psychology student skilled in conflict resolution who's eager to invoke support and to improve the internal culture of ASGC. I am committed to representing and providing a voice to the interests of diverse communities through advocacy. It is important to me that everyone feels like they have a voice and are heard and seen. I will use my voice in order to reflect this by being mindful of other's perspectives and voting on their behalf. I had the honor to represent students' interests previously on the board and I look forward to continuing to contribute in any way I can.”
