**Andrea Jarvis**

ASGC President

ASGC Director of Campus Activities

“I believe that no matter the position in ASGC, I would be a phenomenal asset to our community. What our school needs is someone who is going to stand for our students rights and beliefs, stand for equality and inclusion and I believe I can do just that. I firmly believe that our student voices matter, and that everyone on campus is important! From the students, to the teachers, to our janitors our school is one big family and everyone should be included and represented properly and ethically. I love being a Grossmont College student and I would love to on the ASGC board, and have the honor to serve you all as your President or as a Director of Campus Activities.”
