Emilia Auton

ASGC Secretary

ASGC Board Member

As someone with a history of holding leadership positions, I feel especially qualified to perform the role of student body secretary. When I attended Mesa college, I was a student body senator responsible for hosting multiple student-gearred events that were highly successful as well as creating and signing bills. Here at Grossmont, I am president of the She's The First chapter and have coordinated events with outside organizations. Through these experiences, I have gained a fundamental understanding of the internal processes involved in running a successful student government and am confident I can fulfill the role effectively.
