- Motion to Table: Nathaniel, seconded, Jayson (U) Approved.

**B. Discussion | Return of Student Parking Fees**

**Lu Tri Vi Huynh** | 15 minutes (info/discussion)

The Chair shall facilitate a discussion regarding the possible return of student parking fees to gather members' opinions.

- Parking fees are scheduled to return with the Fall 2025 semester. The Chancellor has asked for student feedback prior to the implementation.

- The fees were waived due to COVID financial restraints in an effort to help students during this time.
- We are the only district locally that continued to waive them in an attempt to help students where we could.
- Parking fees are necessary to build, operate, and maintain parking lots (repaving, lights, repainting, etc.) and provide adequate parking and safe movement of pedestrians and vehicles.
- In addition to parking, the fees provide:
  - o free safety escort services
  - o free vehicle unlocks when students lock their keys in their car or lose their keys
  - o free battery jumps when students leave lights on or has other related issues
  - o and more...
- The revenue generated by parking fees can ONLY be used for building, operating, maintaining, and providing security for parking facilities on campus.
- The Board discussed that when parking fees are enacted, it should be well publicized. There are signs on campus now that state you must pay for parking. People have become immune to the signage and likely wouldn't know they need to pay.
  - o Notices in Canvas would be helpful.
  - o There is usually a 2 week grace period at the start of the semester where CAPS does not ticket for non-permit violations.
  - o The first parking ticket can usually be waived through CAPS website.
- When the fees are enacted, there should be an educational campaign so students know about the fees and understand how they are used.
  - o CAPS services listed above, etc.
- Purchasing the pass should be a part of online registration/payment of fees so students are not surprised with a new fee they had not planned on.
- ASGC would like to have input regarding the price of the pass. ASGC agrees that they want to know how much other schools in California, specifically community colleges, charge for parking passes.
  - o GCCCD permit rates and parking fines are generally amongst the lowest in the state.
- For students who are struggling financially, will Basic Needs, EOPS, or other programs pay for a student's parking?
  - o Promise program students will need additional outreach as most assume school expenses are waived.
  - o Online students will likely avoid the pass.
  - o Fee may push more students into online courses.

- ASGC discussed the possibility of subsidizing a portion of the parking pass through the ASGC Benefit Sticker. There was much discussion on how this would work.
