

Grossmont College Biology AS-T Preparation for the Major

Biology - B.S. DEGREE

To receive admission preference to CSU's students can complete the AS-T in Biology. It is also important that students incorporate as much of the lower division course work found on the www.ASSIST.org articulation agreement as possible. In addition to degree requirements, students must complete **CSU GE Certification for STEM** or **IGETC-CSU for STEM**. CSU GE or IGETC for STEM allows for completion of 6 units of non-STEM GE work after transfer; refer to current catalog for options. It is important to meet with a Counselor for additional assistance.

All courses in the major must be **completed with a grade of "C" or higher**. A "P" (Pass) grade is acceptable for courses in the major for *Associate Degrees for Transfer*.

For additional information specific to SDSU see the following SDSU web site:
<http://arweb.sdsu.edu/es/admissions/transfers/associate-transfer.html>

SDSU accepts AS-T degrees in Biology (visit SDSU ADT website for listing of Biology B.S. emphases). These specific B.S. degrees will not have a foreign language requirement at SDSU. Check with a Counselor for applicability to other CSU's. The Biology AS-T requires a minimum 2.8 Cumulative G.P.A.

Students applying with the AS-T in Biology will receive priority in the admissions process but are not guaranteed admittance into the CSU of their choice.

Admission is highly competitive for most CSU's. Students are strongly advised to go above and beyond minimum G.P.A requirements and apply for admission at multiple campuses.

***Students are strongly encouraged to meet with a Counselor to review Transfer information pertaining to individual campuses and major specific requirements.**

Every effort has been made to ensure this information is accurate. However, the official documents are the current Grossmont College Catalog and San Diego State Catalog.
