**Office of Military & Veterans Affairs**  
**\*Federal Work Study Program\***

***Are you passionate about helping veterans?***

***Are you a full-time student?***

The Veterans Affairs (VA) federal work-study program offers an additional allowance to eligible students for working part-time at a school's Veterans office, VA Regional Office, VA Medical Facility, or other VA approved facility. This allowance is tax-exempt at either the state or federal minimum wage, whichever is greater, per hour. VA limits total contractual hours to 25 hours per week each term on average. Students are limited by the total number of hours that are approved on their contract each term, but they are not required to exhaust them.

Join our team as a work study today! Send in your resume, letter of interest, and application for work study allowance form (VA 22-8691).
